

The NEW Fischer Panda® 3.5e Inverter Generator, Designed for All Boats

The Fischer Panda 3.5e is built for boaters who demand reliable power in a smaller, lighter package. With its efficient design and advanced inverter technology, this generator delivers clean and stable electricity while taking up minimal space and height on board.

Compact Power, Big Possibilities

Ideal for boats with tighter space and moderate power requirements, the Fischer Panda 3.5e keeps essentials like air conditioning, refrigeration, and navigation systems running smoothly. Smart electronics allow quick diagnostics with clear text messages, making operation and service straightforward.

Cruise with Confidence

The Fischer Panda 3.5e combines compact dimensions, dependable performance, and the latest inverter technology to ensure peace of mind on the water. If you're looking for the perfect balance of **size, efficiency, and reliability**, the Fischer Panda 3.5e is your ideal solution. For more information, give us a call.

FEATURES INCLUDE:

■ Digital Control & Monitoring

- Full operational data with clear status messages
- Built-in data logging for easier maintenance

■ Smart Integration & Power Management

- NMEA 2000 compatibility with major MFDs
- High starting capacity for heavy loads

■ Compact, Efficient & Reliable

- Lower deck height and small footprint for easy installation
- Optimized lower-RPM operation for improved efficiency and durability
- Advanced engine protection with preheating, fuel priming, and raw water control

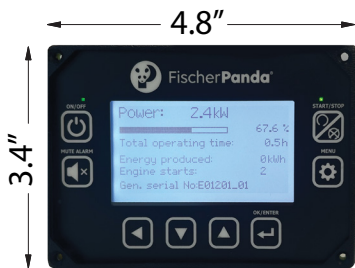

Fischer Panda® 3.5e Inverter Specifications

Frequency (Hz)	60
Voltage (V)	120
Power Nominal (kW)	3.6
Current (A)	29.5
Engine Data	Kubota EA330
Cylinder/HP	1 cyl/6.91
Displacement	325 ccm/19.8 cu.in.
Cooling	Heat Exchanger
Noise Level (dBA @ 23 ft)	54
Length (inches)	26.3
Width (inches)	18.1
Height (inches)	16.3
Wet Weight (lbs) (Generator/Inverter if applicable)	185/14

Issued: 09/24/2025. Fischer Panda Generator is standard with a sound shield.

OPTIONAL ACCESSORIES

External Soft Motor Mounts

External Soft Motor Mounts for extra smooth operation.

Vented Loop

(anti-siphon valve) Recommended for all installations. Prevents water from siphoning back to the engine and minimizes potential electrolysis. Made with a stainless-steel tube and nylon valve for long life and easy service.

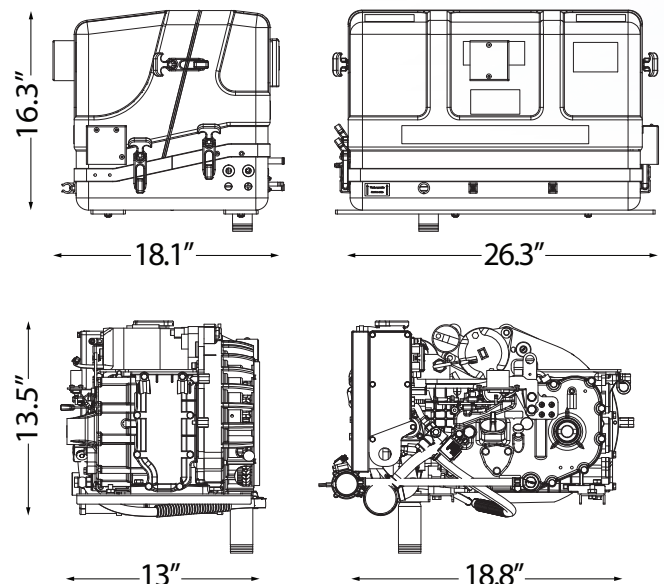

Gas Separator

Exhaust water separator provides very low back pressure and extra quiet exhaust noise.

Low Profile Muffler

Low inlet muffler for installations where the muffler cannot be installed lower than the genset.
